ADA COMPLIANT LOCKERS

Tennsco ADA Compliant Lockers are specifically designed to provide easier access to contents from a seated position. This is achieved by adding a reduced-height upper shelf and coat hooks.

The special ADA compliant Key Cap increase the size of the key head making it easier to grip and turn allowing for single-handed operation.

The reduced height upper shelf and coat hooks bring items normally stored high in the locker down to a reachable level.

Tennsco will modify several of our standard lockers, offering a variety of choices. ADA Compliant Lockers are available for single tier, double tier (bottom locker only), and triple tier (bottom two lockers only) lockers, and can be custom ordered with the ADA features below. Call factory for details. You may also convert your existing lockers to be ADA compliant by ordering the options below.

All ADA Compliant Lockers are shipped with the universal handicap symbol.

Call factory for ADA Lock options.
