tennsco Tool & Die Rack

For extra heavy-duty storage, Tennsco's *Heavy Duty Reinforced Shelving* offers a reinforced shelf capacity of 2,000 lbs. Constructed of 16-gauge steel shelves and 14-gauge posts and supports, the unit's superior strength makes it perfect for storing dies, motors, jigs, fixtures and other heavy materials. Braceless construction allows easy access from all four sides, and the smooth steel surface makes placing and removing items much easier than on wood or wire shelves - simply slide items on and off. A simple design, uncommon for a unit built to withstand such loads, makes it quick and easy to assemble or rearrange.
