Combination Storage Cabinets with Rollout Lateral File Drawer. These popular 36" wide cabinets give you both: a rollout lateral file for hanging files and up to four adjustable shelves for that much needed workstation storage. For confidential materials, these cabinets offer secure access thanks to its key lock and locking bars that secure both doors. For added security the Lateral Drawer has a separate lock and key.

Bookcase/Storage Cabinet allows you to place valuable materials in the lower cabinet, which can be locked or place everyday materials at your fingertips using the upper shelves of the bookcase.

Superior Drawer Suspensions

Drawers operate quietly and effortlessly with the help of a three-member, telescoping, steel ball bearing suspension system which allows each drawer to be completely extended for total access. Standard inner lock keeps more than one drawer from opening at one time.

Neat, Easy Filing

With full height sides that are ready to accept hanging folders and a durable, movable plastic partition, there is no need for file frames that may be lost or misplaced.

Office space a little cramped? Tennsco *Lateral Files* offer substantial space savings and more efficient access to your most-used files. Their solid construction and contemporary good looks make these files a solid value for most office filing applications. A standard, single "master" lock controls all drawers and doors while drawers easily slide out on full progressive, lifetime warranted ball bearing suspensions. Files come standard with hanging folder rods for filing Pendaflex folders (side-to-side). Order optional cross rods for front-to-back filing.

Q-Line Industrial Shelving: Components

With *Q-Line*, create your own custom shelving system to fit your specific requirements. It's simple: Start with posts (see below) selecting the one that best fits your height and weight requirements. Next, select a shelf (page 28), again considering shelf loads, and finally add end panels or doors (pages 27 and 29) for that finishing touch.

It's that easy!

For extra heavy-duty storage, Tennsco's *Heavy Duty Reinforced Shelving* offers a reinforced shelf capacity of 2,000 lbs. Constructed of 16-gauge steel shelves and 14-gauge posts and supports, the unit's superior strength makes it perfect for storing dies, motors, jigs, fixtures and other heavy materials. Braceless construction allows easy access from all four sides, and the smooth steel surface makes placing and removing items much easier than on wood or wire shelves - simply slide items on and off. A simple design, uncommon for a unit built to withstand such loads, makes it quick and easy to assemble or rearrange.
