## **NEWS RELEASE**

### *Tennsco is Environmentally Friendly*

**For immediate release - December 7, 2010** • At Tennsco we recognize our responsibility to help sustain earth and are dedicated to improving the environment through education to our employees and customers.

By using Tennsco products, our customers are able to apply for the following LEED® credits:

- MR Credit 4.1 and 4.2 – Recycled Content
- MR Credit 5.1 – Manufactured Regionally
- MR Credit 5.2 – Extracted and Manufactured Regionally
- EQ Credit 4.2 – Low Emitting Materials, Paints

LEED® is a third-party certification program and the nationally accepted benchmark for the design, construction and operation of high performance green buildings. LEED® gives building owners and operators the tools they need to have an immediate and measurable impact on their buildings' performance.

The US Green Building Council's Leadership in Energy and Environmental Design (LEED®) encourages and accelerates global adoption of sustainable green building and development practices through the creation and implementation of universally understood and accepted tools and performance criteria.

And, Tensco steel products are certified SCS Indoor Advantage Gold for indoor air quality and low VOC emissions.

Tensco Corp., headquartered in Dickson, Tennessee, began operations in 1962. Today, Tensco is an industry leader with over 1.4 million square feet of manufacturing and warehouse space in six facilities. Tensco offers a wide variety of filing and storage systems, steel office furniture, industrial and institutional shelving, lockers and shop equipment. To learn more about our LEED credits or about what we offer, visit [www.tensco.com](http://www.tensco.com).
