ASSEMBLY OF SERVICE CART

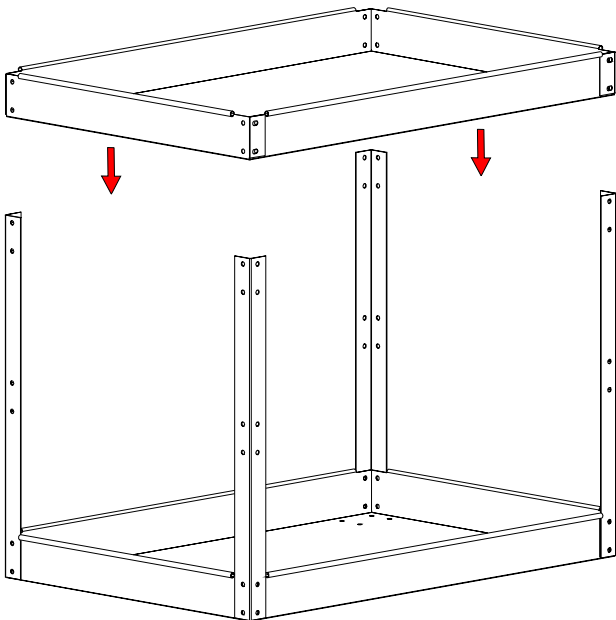

Two people are recommended for assembly. Approximate assembly time: 15-20 minutes.

The reference numbers used throughout this sheet refer to the illustration on the back cover. This is to help you to identify the various parts as they are mentioned.

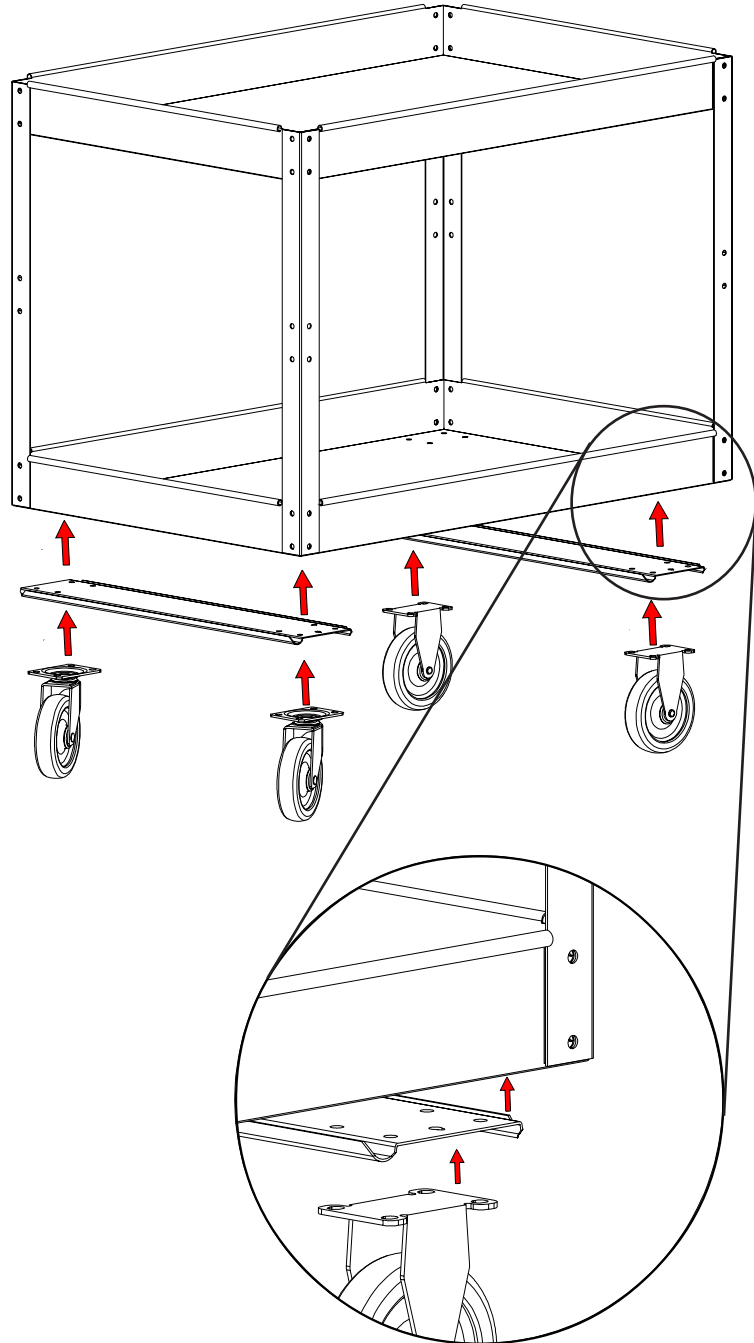

1. Bolt the lower tray (Ref. No. 2) to the four upright posts (Ref. No. 3) with sixteen of the provided 1/4-20 bolts and nuts.

2. Bolt the upper tray (Ref. No. 1) to the posts with twelve of the bolts and nuts provided. Be sure not to attach the tray to the posts where the handle brackets (Ref. No. 7) will be mounted.

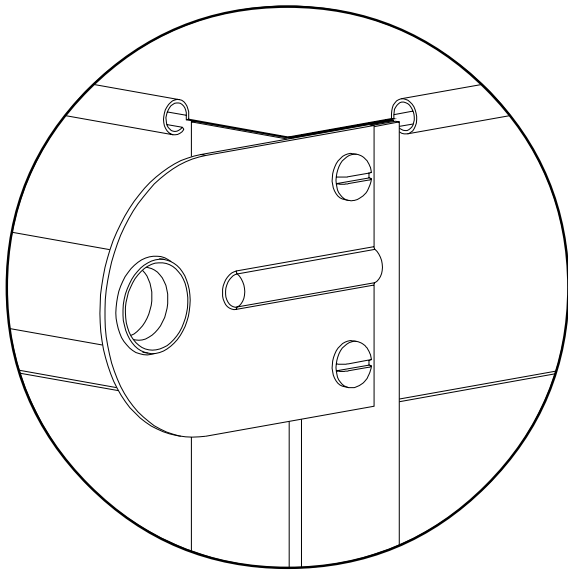

3. Place the caster support (Ref. No. 4) between the lower tray and the casters and secure with four of the 1/4-20 bolts and nuts. Repeat for each of the three other casters.

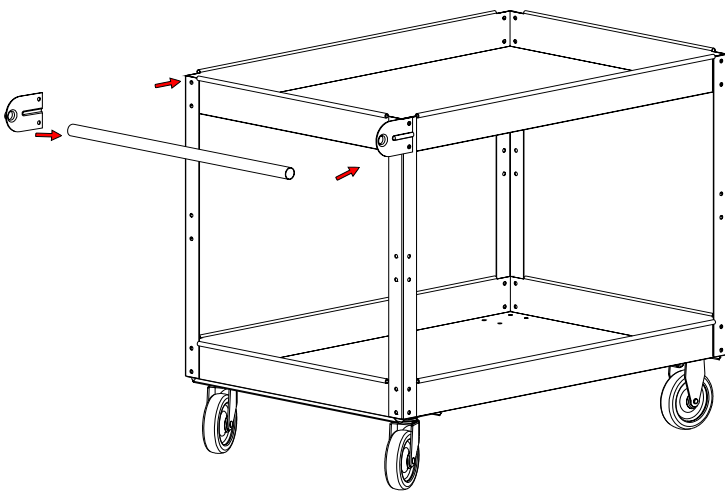

NOTE: Align the Caster Support holes with the lower tray holes.

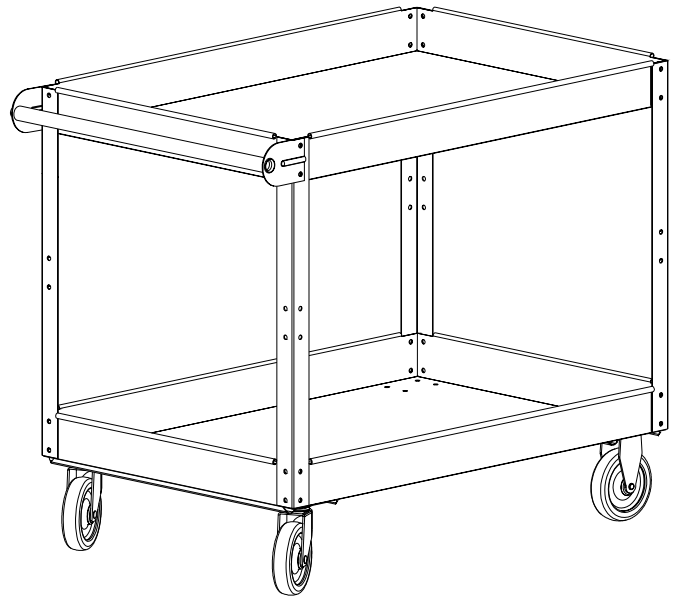

4. Attach the right handle bracket to the outside of the post using two of the nuts and bolts. Ensure the embossed side of the handle bracket is facing inward.

5. Slide the tubular handle (Ref. No. 8) over the embossed section of the bracket. While still holding the handle, place the left handle bracket into position and bolt to the post, as you did in step 4.

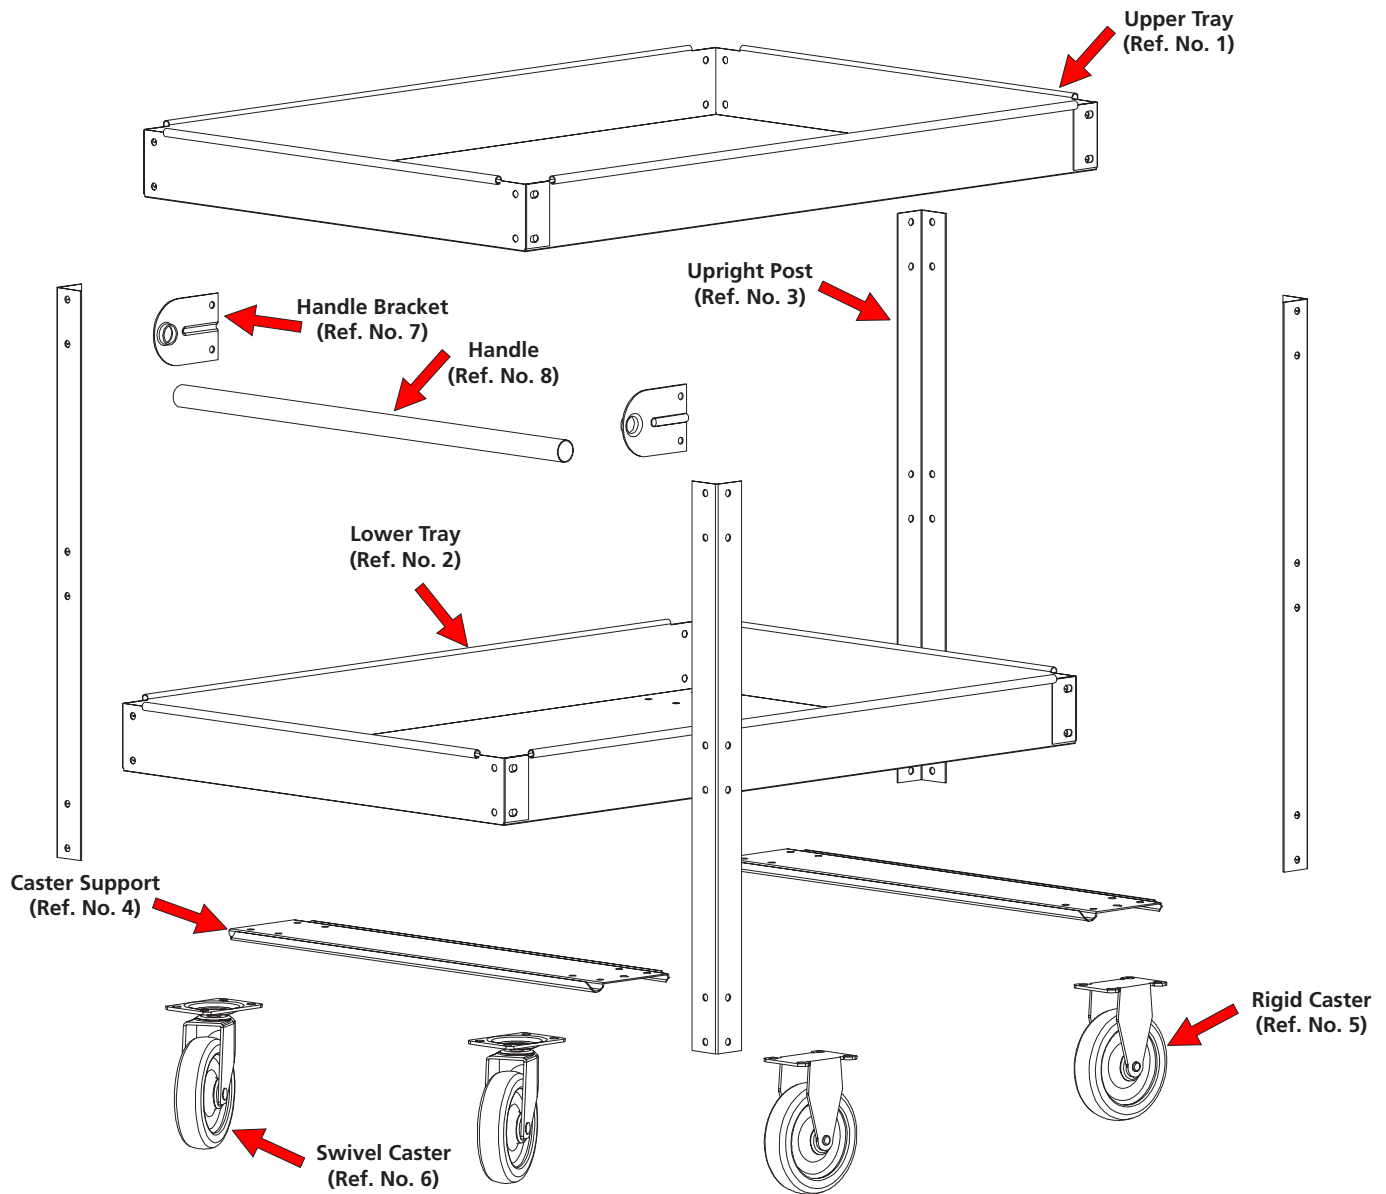

6. After checking the entire cart assembly for squareness, tighten all the bolts and nuts. Your Service Cart is now assembled and ready to use.

NOTE: Pulling the cart can cause serious injury; when moving the cart, always push the cart in front of you using the provided handle.
